# Scholar Rock to Participate in Upcoming Investor Conferences

February 28, 2024

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Feb. 28, 2024-- Scholar Rock (NASDAQ: SRRK), a late-stage biopharmaceutical company focused on advancing innovative treatments for spinal muscular atrophy (SMA), cardiometabolic disorders, and other serious diseases where protein growth factors play a fundamental role, today announced that management will participate in and attend the following upcoming investor conferences in March:

- TD Cowen 44th Annual Health Care Conference: Scholar Rock is scheduled to participate in a fireside chat at 9:10 a.m. ET on Tuesday, March 5 in Boston.
- 3rd Annual Jefferies Biotech on the Bay Summit, March 12 in Miami, Florida.
- BMO Biopharma Spotlight Series: Obesity Day: Scholar Rock is scheduled to participate in a panel discussion on Wednesday, March 20 in New York City.

A live webcast of the Cowen event may be accessed by visiting the Investors & Media section of the Scholar Rock website at http://investors.scholarrock.com. An archived replay of the webcast will be available on the Company's website for approximately 90 days.

**About Scholar Rock**

Scholar Rock is a biopharmaceutical company that discovers, develops, and delivers life-changing therapies for people with serious diseases that have high unmet need. As a global leader in the biology of the transforming growth factor beta (TGFβ) superfamily of cell proteins and named for the visual resemblance of a scholar rock to protein structures, the clinical-stage company is focused on advancing innovative treatments where protein growth factors are fundamental. Over the past decade, Scholar Rock has created a pipeline with the potential to advance the standard of care for neuromuscular disease, cardiometabolic disorders, cancer, and other conditions where growth factor-targeted drugs can play a transformational role.

Scholar Rock is the only company to show clinical proof-of-concept for a muscle-targeted treatment in spinal muscular atrophy (SMA). This commitment to unlocking fundamentally different therapeutic approaches is powered by broad application of a proprietary platform, which has developed novel monoclonal antibodies to modulate protein growth factors with extraordinary selectivity. By harnessing cutting-edge science in disease spaces that are historically under-addressed through traditional therapies, Scholar Rock works every day to create new possibilities for patients. Learn more about our approach at ScholarRock.com and follow @ScholarRock and on LinkedIn.
