

Scholar Rock to Participate in Upcoming Investor Conferences

October 31, 2024

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Oct. 31, 2024-- Scholar Rock (NASDAQ: SRRK), a late-stage biopharmaceutical company focused on advancing innovative treatments for spinal muscular atrophy (SMA), cardiometabolic disorders, and other serious diseases where protein growth factors play a fundamental role, today announced that management will participate in the following upcoming investor conferences:

- Truist Securities BioPharma Symposium: Scholar Rock is scheduled to participate in a panel presentation at 3:25 p.m. ET on Thursday, November 7 in New York City.
- Jefferies London Healthcare Conference: Scholar Rock is scheduled to participate in a fireside chat at 4:30 p.m. GMT on Wednesday, November 20 in London.
- Piper Sandler 36th Annual Healthcare Conference: Scholar Rock is scheduled to participate in a fireside chat at 1:30 p.m. ET on Wednesday, December 4 in New York City.

A live webcast of the events may be accessed by visiting the Investors & Media section of the Scholar Rock website at <http://investors.scholarrock.com>. Archived replays of the webcasts will be available on the Company's website for approximately 90 days.

About Scholar Rock

Scholar Rock is a biopharmaceutical company that discovers, develops, and delivers life-changing therapies for people with serious diseases that have high unmet need. As a global leader in the biology of the transforming growth factor beta (TGF β) superfamily of cell proteins and named for the visual resemblance of a scholar rock to protein structures, the clinical-stage company is focused on advancing innovative treatments where protein growth factors are fundamental. Over the past decade, Scholar Rock has created a pipeline with the potential to advance the standard of care for neuromuscular disease, cardiometabolic disorders, cancer, and other conditions where growth factor-targeted drugs can play a transformational role.

This commitment to unlocking fundamentally different therapeutic approaches is powered by broad application of a proprietary platform, which has developed novel monoclonal antibodies to modulate protein growth factors with extraordinary selectivity. By harnessing cutting-edge science in disease spaces that are historically under-addressed through traditional therapies, Scholar Rock works every day to create new possibilities for patients.
