Scholar Rock to Present at Upcoming Investor Conferences

November 17, 2026

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Nov. 17, 2026-- Scholar Rock (NASDAQ: SRRK), a global biopharmaceutical company dedicated to improving the lives of patients with rare, severe, and debilitating neuromuscular diseases by applying its world-leading platform in myostatin biology, today announced that management will participate in the following investor conferences:

- **9th Annual Evercore Healthcare Conference**: Scholar Rock is scheduled to participate in a fireside chat at 8:45 a.m. ET on Tuesday, December 1, 2026, in Miami.
- **Citi 2026 Global Healthcare Conference**: Scholar Rock is scheduled to participate in a fireside chat at 3:40 p.m. ET on Wednesday, December 2, 2026, in Miami.

A live webcast of the events will be available under the “Events and Presentations” page within the Investors section of the Scholar Rock website at http://investors.scholarrock.com. A replay of the webcasts will be available for approximately 90 days.

About Scholar Rock

Scholar Rock is delivering muscle-targeted breakthroughs to transform the treatment of spinal muscular atrophy (SMA) and other rare neuromuscular diseases where muscle atrophy remains a critical unmet need. Following FDA approval in September 2026, Scholar Rock is commercializing ISEMBLYD™ (apitegromab-mstn) in the U.S. for people living with SMA who are 2 years of age and older and currently receiving a survival motor neuron 2 (SMN2)-targeted treatment. The Company plans to expand access to ISEMBYLD globally, in up to 50 countries worldwide, subject to regulatory approvals.

As a global leader in myostatin biology, a field focused on proteins that regulate muscle mass, the biopharmaceutical company is named for the visual resemblance of a scholar rock to protein structures. Our commitment to unlock fundamentally different treatment approaches is powered by broad application of a proprietary platform, which has developed novel monoclonal antibodies to modulate protein growth factors with extraordinary selectivity. Scholar Rock works every day to create new possibilities for patients through its highly innovative anti-myostatin program, including opportunities in additional rare neuromuscular diseases. Learn more about our neuromuscular franchise at **ScholarRock.com** and follow @ScholarRock on X and on LinkedIn.

Scholar Rock® is a registered trademark and ISEMBYLD™ is a trademark of Scholar Rock, Inc.
