"Ted's deep industry knowledge and extensive leadership experience across finance, operations, and strategic development and implementation will be instrumental in driving the execution of the Company's key initiatives," said Tony Kingsley, Incoming CEO of Scholar Rock. "His areas of expertise strongly complement the capabilities of the existing team as we build on the achievements of our scientific platform and progress our lead product candidates towards late-stage development and commercialization for patients in need."

"Having served on the Company's Board of Directors the past 18 months, I have witnessed the immense potential of our scientific platform and clinical programs and have a high degree of confidence in the team's ability to execute," said Ted Myles. "This is a pivotal time for Scholar Rock as we advance two in-house product candidates towards important clinical milestones and I am thrilled to work alongside the leadership team to help prepare for the next stage of the company's evolution."

Ted Myles most recently served as Chief Financial Officer and Chief Operating Officer of AMAG Pharmaceuticals, Inc. Prior to joining AMAG, he served as CFO and COO at Ocata Therapeutics, Inc. until its acquisition by Astellas Pharma, Inc. His prior leadership positions include CFO and Vice President of Operations at PrimeraDx, Inc. and Controller of EMD Pharmaceuticals (now EMD Serono, a part of Merck KGaA). Earlier in his career, Mr. Myles

was an associate in the healthcare investment banking group at SG Cowen Securities Corporation and was a senior associate in the audit practice of Coopers & Lybrand LLP. Mr. Myles holds a Master of Business Administration from John M. Olin School of Business at Washington University and Bachelor of Science in Business Administration from the University of Hartford.

About Scholar Rock

[Scholar Rock](#) is a clinical-stage biopharmaceutical company focused on the discovery and development of innovative medicines for the treatment of serious diseases in which signaling by protein growth factors plays a fundamental role. Scholar Rock is creating a pipeline of novel product candidates with the potential to transform the lives of patients suffering from a wide range of serious diseases, including neuromuscular disorders, cancer, fibrosis and anemia. Scholar Rock's newly elucidated understanding of the molecular mechanisms of growth factor activation enabled it to develop a [proprietary platform](#) for the discovery and development of monoclonal antibodies that locally and selectively target these signaling proteins at the cellular level. By developing product candidates that act in the disease microenvironment, the Company intends to avoid the historical challenges associated with inhibiting growth factors for therapeutic effect. Scholar Rock believes its focus on biologically validated growth factors may facilitate a more efficient development path.
