About Scholar Rock

Scholar Rock is a biotechnology company focused on discovering and developing a novel class of biologic therapies that target supracellular activation of growth factors in the disease microenvironment. The Company's initial proprietary and partnered drug discovery programs target specific growth factors which are present in the microenvironments of significant diseases, including fibrosis, musculoskeletal diseases, immuno-oncology and autoimmune diseases. Scholar Rock was founded upon discoveries made by its scientific founders, Professors Timothy Springer, PhD, and Leonard Zon, MD, of Boston Children's Hospital and Harvard Medical School, related to the molecular mechanisms of supracellular activation. The company is backed by leading investors, including Polaris Partners, Timothy Springer, ARCH Venture Partners, Fidelity Investments, EcoR1 Capital, The Kraft Group, and Cormorant Asset Management.
