Scholar Rock Reports New Employee Inducement Grants Under Nasdaq Listing Rule 5635(c)(4)

December 15, 2023

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Dec. 15, 2023-- Scholar Rock (NASDAQ: SRRK; “The Company”), a Phase 3, clinical-stage biopharmaceutical company focused on the treatment of serious diseases in which protein growth factors play a fundamental role, today announced that the company granted inducement equity awards covering an aggregate of 78,576 shares of its common stock to 6 newly hired employees, consisting of inducement stock options to purchase an aggregate of 44,900 shares of common stock and inducement restricted stock units, (“RSUs”), covering an aggregate of 33,676 shares of its common stock.

The awards are subject to all terms and conditions and other provisions set forth in the Company’s 2022 Inducement Equity Plan (“The Plan”) and the award agreements thereunder.

The Plan, which was adopted by the Company’s board of directors on June 16, 2022, is used exclusively for the grant of equity awards to individuals who were not previously employees of Scholar Rock, or following a bona fide period of non-employment, as an inducement material to such individuals entering into employment with Scholar Rock, pursuant to Nasdaq Listing Rule 5635(c)(4).

The options have an exercise price of $18.07, which is equal to the closing price of Scholar Rock’s common stock on December 11, 2023. The stock option award will vest with respect to 25% of the shares of common stock underlying the award on the first anniversary of each employee’s start date, and the remaining 75% of the shares of common stock underlying the Stock Option Award will vest in 12 equal quarterly installments thereafter. Vesting for RSUs will be in four equal annual installments. All vesting related to inducement awards is subject to the employees’ continuing service at the Company through the applicable vesting date.

About Scholar Rock

Scholar Rock is a biopharmaceutical company that discovers, develops, and delivers life-changing therapies for people with serious diseases that have high unmet need. As a global leader in the biology of the transforming growth factor beta (TGFβ) superfamily of cell proteins and named for the visual resemblance of a scholar rock to protein structures, the clinical-stage company is focused on advancing innovative treatments where protein growth factors are fundamental. Over the past decade, Scholar Rock has created a pipeline with the potential to advance the standard of care for neuromuscular disease, cardiometabolic disorders, cancer, and other conditions where growth factor-targeted drugs can play a transformational role.

Scholar Rock is the only company to show clinical proof of concept for a muscle-targeted treatment in spinal muscular atrophy (SMA). This commitment to unlocking fundamentally different therapeutic approaches is powered by broad application of a proprietary platform, which has developed novel monoclonal antibodies to modulate protein growth factors with extraordinary selectivity. By harnessing cutting-edge science in disease spaces that are historically under-addressed through traditional therapies, Scholar Rock works every day to create new possibilities for patients.
